

Dogs and Cats

Puppies and Kittens

Lots of short classes to help you train your pets! Taught by local trainer Shannon Finch.

Cats & Kittens: Intro to TTouch (Mount Vernon Campus)

Does your cat refuse to use the litter box, bully other cats in the family, or is too frightened to come out from under the bed? This hands-on, interactive workshop is for you! Improve your cat's health and well-being using the Tellington TTouch method and help reduce anxiety, fear and aggression in your cat. Learn first aid techniques that can save your cat's life, and explore techniques for working with feral cats. Bring a stuffed animal (not your kitty!) to practice with.

6187 CPROF 036 AG 9:30AM-12:30PM Sa 2/18 F119 Finch \$59.00 

Dog Shorts: Calm Down (Mount Vernon Campus)

Jumping up, demand barking, hyperactivity, over-exuberance with other dogs—all signs that your dog is lacking self-control. This workshop focuses on humane training and management techniques to help your dog learn how to greet people and other dogs appropriately, stay four-on-the-floor, and settle on a mat.

6191 CPROF 040 AG 11:30AM-1:00PM Sa 3/3 F119 Finch \$40.00 

Dog Shorts: Come Back! (Mount Vernon Campus)

Coming back when called is a skill that can save your dog's life, and it's the one thing most dog owners find really difficult to train or maintain. It doesn't have to be. This workshop covers why your dog doesn't want to come back to you and several techniques to help you and your dog achieve a solid recall.

6189 CPROF 038 AG 11:30AM-1:00PM Sa 2/4 F119 Finch \$40.00 

Dog Shorts: Walk With Me (Mount Vernon Campus)

Does your dog pull on the leash, or worse, bark hysterically or lunge when she sees other dogs or people? Walking calmly on leash is a skill that can be taught. You don't have to use harsh equipment or get rough with your dog. This workshop covers effective and humane techniques to make your dog a joy to work.

6188 CPROF 037 AG 9:30AM-11:00AM Sa 2/4 F119 Finch \$40.00 

Dog Shorts: Watch Your Mouth (Mount Vernon Campus)

Barking, whining, chewing, even biting are all natural dog behaviors. This workshop helps you understand what your dog is telling you when she exhibits these behaviors, and what to do about them in a humane and effective manner. Class applies to all ages of dogs, from puppies to seniors.

6190 CPROF 039 AG 9:30AM-11:00AM Sa 3/3 F119 Finch \$40.00 

Dogs & Puppies: Intro to ITTouch (Mount Vernon Campus)

Does your dog shriek and lunge at other dogs? Dig up your yard? Chew your shoes? Do you have a teething puppy or an older dog feeling his age? This hands-on interactive course is for you. Improve your dog's behavior and health using the TTouch method to reduce anxiety, fear and stress in your dog and explore techniques to address common behavior problems such as digging, barking, chewing, leash pulling, and jumping up. We'll also practice TTouch first aid techniques that can save your dog's life. Bring a stuffed animal to practice on—not your dog.

6192 CPROF 041 AG 9:30AM-12:30PM Sa 1/21 F119 Finch \$59.00 

It's easy to register.

Stop by our registration office on the Mount Vernon campus, or give us a call: **360.416.7638.**
