IMPORTANT INFORMATION FOR APPLICANTS TO THE NURSING PROGRAM

Licensing Eligibility

When you near completion of the nursing education program you will make application to a State Board of Nursing (in Washington State – Nursing Care Quality Assurance Commission) to take the licensing examination.

In order to minimize potential problems nursing graduates might experience in obtaining a nursing license, it is important to understand the relationship of nursing programs to the licensing process. Schools of nursing do not have the power to grant licensure as a Registered Nurse (RN) or Licensed Practical Nurse (LPN). The college's nursing program is approved by the Washington State Nursing Care Quality Assurance Commission to provide education and training, which qualifies graduates to take a state licensing examination. In addition to completing a nursing education program, State Boards of Nursing also have the right to inquire about aspects of your personal life that might have a bearing on your ability to practice as a licensed nurse.

One part of this application asks applicants to answer “yes” or “no” to a series of questions. If any of the questions are answered “Yes,” full details must be furnished on a separate (8-1/2 x 11 inches) page and attached to the application for licensure. The Nursing Commission will investigate and has the power to refuse licensure. We believe it is important for you to be aware of these questions prior to starting the program. Consult the Washington State Nursing Care Quality Assurance Commission (360) 236-4700 or online for details regarding these questions.

Application Questions:

1. Do you have a medical condition which in any way impairs or limits your ability to practice your profession with reasonable skill and safety?

2. Do you currently use chemical substance(s) in any way which impair or limit your ability to practice your profession with reasonable skill and safety?

3. Have you ever been diagnosed with, or treated for, pedophilia, exhibitionism, voyeurism or frotteurism?

4. Are you currently engaged in the illegal use of controlled substances?

5. Have you ever been convicted, entered a plea of guilty, no contest, or a similar plea, or had prosecution or a sentence deferred or suspended in any state or jurisdiction in connection with:
   - The use or distribution of controlled substances or legend drugs?
   - A charge of a sex offense?
   - Or any other crime, other than minor traffic infractions (including DUI, or reckless driving)?

6. Have you ever been found in any civil, administrative or criminal proceeding to have:
   - Possessed, used, prescribed for use, or distributed controlled substances or legend drugs in any way?
7. Have you been found in any proceeding to have violated any state or federal law or rule regulating the practice of a health care profession?

8. Have you ever had any license, certificate, registration or other privilege to practice a health care profession denied, revoked, suspended, or restricted by a state or federal or foreign authority?

9. Have you ever surrendered a credential like those listed in number 8, in connection with or to avoid action by a state, federal or foreign authority?

10. Have you ever been named in any civil suit or suffered any civil judgment for incompetence, negligence, or malpractice in connection with the practice of a health care profession?

If you answered “yes” to any of the above, full details must be furnished to the Nursing Commission. The laws of Washington do not allow community college programs to discriminate in their admission process based on difficulties in any of the areas covered by these questions. Therefore, it is possible that a student could be admitted to, and successfully complete the programs and not be eligible for licensure.

The Nursing Commission will not discuss the possible action it might take regarding eligibility for licensure until the time that the candidate makes official application for the examination. Therefore, if you have any questions regarding this requirement, it is recommended that you discuss these with the Nursing Program Director prior to entering the Nursing Program.
