Discussion followed regarding the low placement test results for math.

information that will assist in continuing the work to support and strengthen teaching, learning, and student success.

Mr. Takehara asked if we receive information on how transfer students integrate into the four-year colleges and universities. Dr. Pettitt responded that a large number of our students transfer to Western Washington University (WWU) and that until this past year WWU has not participated in the database for that information. She said that she hopes to be able to supply that information next year.
