IS A CAREER IN COMPOSITES TECHNOLOGY FOR ME?

- Learn more about this career
- Program Information
- Program Planning Guide
- Estimated Cost of Program

Composite manufacturing and repair are part of many industries, including: marine, aerospace, construction, sporting equipment, medical, alternative energy, automotive and consumer goods.

The Composites Technology program at Skagit Valley College provides students with the technical skills and competencies required to meet demands of current, new and emerging applications. In addition to earning college certificates, students will also prepare to take American Composites Manufacturers Association (ACMA) certification exams - the gold standard of composite credentials.

PREPARATION

- GED
- ESL
- Pre-College (Adult Basic Ed.)
