### Cost of Attendance Estimates

The Cost of Attendance (COA) is an estimate of what it will cost to attend SVC for a standard academic year, Fall, Winter, and Spring quarter and includes tuition and fees, books and supplies, living expenses, transportation, and personal costs. Your COA determines the maximum amount of financial aid you can receive from all sources combined, which is also called your financial aid budget. This document lists estimated COA amounts. These amounts are based on full-time enrollment and will vary depending on factors such as your program, enrollment status, and living situation.

**Dental Therapy AAS**

The Dental Therapy program is a high-cost program with a specialized Cost of Attendance budget due to higher tuition and required supply costs. These estimates reflect a **standard nine-month academic year** and are based on three quarters of enrollment in core Dental Therapy coursework only. Because the program spans multiple years and includes variations in enrollment, actual costs and financial aid eligibility may vary from year to year. Students should refer to additional guidance provided by the Dental Therapy program and the Financial Aid Office for more in-depth information.
