#### **Role of the Core Team**

Achieving the Dream's student-centered model of institutional improvement is focused on creating a culture of evidence in which data and inquiry drive broad-based institutional efforts to close achievement gaps and improve student outcomes overall. The role of the Core Team is to lead the College's overall change efforts as it develops and implements research-based practices and policies based on an analysis of its institutional strengths, problem areas, and achievement gaps. In collaboration with the Data Team and the college community, the Core Team analyzes student data, sets priorities, develops strategies, and implements and evaluates institutional improvements.
