

# Anthropology Planning Guide 2019-2020

---

## Program Overview

---

Anthropology studies all aspects of humanity, investigating how seemingly different individuals, cultures, and societies are related to one another and to all of humankind as a whole.

Anthropology itself is so broad a topic it is broken down into many sub-disciplines. Skagit offers courses in several of these sub-disciplines, including cultural anthropology, physical anthropology, archaeology, and linguistic anthropology.
