

# Environmental Conservation Water or Wastewater Treatment Technology Planning Guide 2019-2020

---

## Program Overview

---

The Environmental Conservation program is designed to meet the growing need for environmental and natural resource technicians within the natural resources and parkland areas. The Water/Wastewater Treatment Technology emphasis is intended to meet the growing employment needs within water technology fields. Students may need to conduct a job search beyond the local community in order to find the positions they desire in this area.

## Sample Career Options Include:

---

[Water & Wastewater Treatment Plant & System Operators](#)

## Workforce

---

If you are interested in working in the field of Environmental Conservation, our Workforce Planning Guide is designed to provide you with recommended courses to complete your [Environmental Conservation Water/Wastewater Treatment Technology](#) degree. Of course, educational plans may vary, based on which quarter you begin, how many credits are taken, and placement into Math and English. To keep you on the best pathway, we encourage you to consult with an Academic Advisor for scheduling options.

## Degree Map

---

Degree Maps are an integral part of our Planning Guide. Each Degree Map includes a suggested quarterly sequence of courses so you could earn your degree within two years of full-time study. Your Degree Map is also designed to help you create an individualized, customized Educational Plan, which is required of all SVC students. To start creating your Educational Plan, please consult with an Academic Advisor.
