

Nutrition Planning Guide 2019-2020

Program Overview

The [Associate of Arts Direct Transfer Agreement, AA-DTA](#) with Nutrition Emphasis prepares students for a career in nutrition, by setting them on the path to earning a bachelor's degree in nutrition/dietetics or becoming a Registered Dietitian Nutritionist (RDN). Nutrition professionals can work in many different capacities, depending on level of education achieved, credentials, and specialization. These can include nutrition counselor, clinical dietitian, health educator, sports nutritionist, employee wellness instructor, food scientist, public health dietitian, or corporate dietitian.

While SVC only offers one nutrition course at this time, there is a recommended slate of additional related courses that will set the student up for successful transfer to a bachelor's program in nutrition, including accredited programs that lead to the RDN credential.

Sample Career Options Include:

Transfer

If you are considering a major in Nutrition and transferring to a four-year college or university in Washington state, our Transfer Program Planning Guide is designed to provide you with recommended courses to complete your [Associate of Arts Direct Transfer Agreement, AA-DTA](#) degree. Of course, educational plans may vary, based on which quarter you begin, how many credits are taken, placement into Math and English, and your preferred transfer institution. To keep you on the best pathway, we encourage you to consult with an Academic Advisor for scheduling options.

Degree Map

Degree Maps are an integral part of our Planning Guide. Each Degree Map includes a suggested quarterly sequence of courses so you could earn your degree within two years of full-time study. Your Degree Map is also designed to help you create an individualized, customized Educational Plan, which is required of all SVC students. To start creating your Educational Plan, please consult with an Academic Advisor.
