PETITION FOR EXTENDED FINANCIAL AID ELIGIBILITY

_____   _____
Student Name   SID Number

Your Financial Aid has been suspended for at least one of the reasons below. Please check the applicable circumstance(s) and submit all required documents to the Financial Aid Office for consideration.

I am petitioning for:

☐   Change of Program

- You are allowed one change of program before reaching 40 credits per Skagit Valley College's Satisfactory Academic Progress (SAP) policy. If you are changing programs more than once, or any time after 40 credits, you must petition to **explain why the change** should be funded by financial aid.

I am requesting financial aid funding to change my program from _____

to _____

☐   Prior Degree or Certificate

- If you have already completed a two year degree or a total of two programs of study at Skagit Valley College, as defined in our Satisfactory Academic Progress policy, you must petition to explain why an additional degree or certificate is needed in order to justify the receipt of further financial aid.

☐   Maximum Timeframe

- If you will exceed Federal or State Financial Aid attempted credit limits before completion of your program at Skagit Valley College, you may petition to determine if an extension can be made due to **extenuating circumstances**. Details regarding program limits are outlined in Skagit Valley College's Satisfactory Academic policy.

Attach the following items to this form and submit to the Financial Aid Office:

❑ A **typed** detailed description that addresses why an extension of financial aid eligibility is needed.
❑ A Plan of Classes to Graduate **developed with, and signed by, a counselor or advisor** (or printout of Educational Plan from TargetX). All classes required for completion of your program must be included.
❑ A copy of a Progress Tracker Report for your program.
❑ Any other pertinent documentation (such as medical) which will support your case, if applicable.

The appeals committee will review your petition and you will be notified by email of approval or denial. Typical review may take 2-3 weeks.
